DALLAS, TEXAS, IS SCENE OF BANDITRY ONE MAN KILLED

Dallas, Texas, Jan. 15.—With one man dead beneath an automobile and another in custody following the spectacular holdup of the Jackson Street postoffice in which two postal clerks were shot and a part of a federal reserve shipment stolen, additional arrests were expected by the police today. Six men participated in the robbery. Arriving at the station, five alighted from the touring car and four entered the building, shooting as they entered. A bullet clipped off the finger of Anderson Moore, a negro porter and another whizzed past the head of Miss Jane Cullum, a postoffice employee. Albert Smith, aged 35, and G. W. Street were shot in the registry room when Smith started an argument with the robbers.

Police, citizens and city officials started in pursuit of the men after they had taken two small mail sacks and fled. Postoffice officials said they obtained between \$3,000 and \$20,000. About \$28,000 in mutilated money also was obtained. A part of it was being shipped back to the treasury department at Washington. While the posse was searching the country word was received that a man was found dead under a wrecked car on the Lake Worth road near Fort Worth.

SHIFTS IN HARDING CABINET APPEAR TO BE TAKING PLACE

Marion, O., Jan. 15.—Shifts in Harding's cabinet slate appeared to be taking place today. Charles A. Daws, of Chicago, who has been mentioned for the treasury post, is now being considered for the war department and Andrew Mellon, of Pittsburgh, appears in the lead for the treasury. Ex-Senator John W. Weeks, of Massachusetts, who is understood to desire the treasury post, may become secretary of the navy. Weeks is held in high regard by Harding, but is being opposed for the treasury post by middle west bankers who want a Chicago man for the post. Daws could fill the war job equally as well as in the treasury.

THIRTEEN CASES SCARLET FEVER IN CLEARFIELD

Clearfield People Must Obey Quarantine Laws Or We Will be Faced With Epidemic

DIPHTHERIA ALSO

There are 13 cases of scarlet fever in Clearfield today under quarantine by the board of health. These 13 cases are in ten homes.

There are quite a few cases of diphtheria about the town too.

The great difficulty with Clearfield people is that they do not want to obey the quarantine laws and when their children are taken down with either of the above mentioned dangerous diseases they attempt to evade the health laws by hiding the fact of their child's illness and several other children from the infected home go to school and mingle with others in church, Sunday school and theater crowd regardless of the deadly menace to innocent people.

The new school nurse is filling a long felt want in Clearfield and has already accomplished wonders in the detection of these contagious diseases before they have chance to spread generally.

More stringent enforcement of the health rules and quarantine regulations, with a severe penalty for every violation is absolutely necessary for the protection of the public health.

It is also said that the doctors of the town are derelict and don't have backbone enough to require the strictest quarantine and make everybody comply therewith when there is the slightest evidence of infections or contagious disease.

There is a great deal of sickness about the town at present and eternal vigilance alone will prevent epidemics.

CLEARFIELD WON AT REYNOLDSVILLE AND HOLDS FIRST PLACE

Will Play Strong Kane Team Here This Evening When a Real Test of Strength Will be Seen.

WILL BE A SNAPPY GAME

By Dick Leopold

Last evening Clearfield High's basketball team won its second game of the league schedule, defeating Reynoldsville High School at Reynoldsville, 37-22.

The details of the contest are not yet known, as C. H. S. squad of floor artists will not arrive till the 4:30 o'clock train, but it is apparent from the score that the Red and Black put up a fine game, for they defeated the Jefferson county team by a greater score than Brookville did a week ago, and if Bill Ammerman, Clearfield's star forward, had been in the contest, Clearfield's total would have probably been greater.

Brookville and Punxsy continued to win, Brookville defeating New Bethlehem 49-23, and Punxsy handeling the DuBois team another setback 38-16, at Punxsy.

League Standing

	W.	L.	Pct.
Clearfield	2	0	1.000
Punxsy	2	0	1.000
Brookville	2	0	1.000
DuBois	0	2	.000
Reynoldsville	0	2	.000
New Bethlehem	0	2	.000

Kane High School Here Tonight

This evening Coach Staff's students will line up against the strong Kane five, and although C. H. S. just emerged from a strenuous contest they should make things interesting for the Kane quintet.

This game is the first basketball contest between the two schools. Clearfield opening athletic relations with the McKean county knowledge factory last fall in football, and although Kane lost in football, it made no excuses, as Kane High centers all its efforts toward developing a fast floor team, so the game tonight is sure to be fast and snappy.

PERROT HAS FAILED TO FORM MINISTRY POINCARÉ MAY TRY

Paris, Jan. 15.—Paul Perrot, designated by Premier Millerand to form new French cabinet, announced at noon today that he was unable to perform the task. On his way to the Alysse palace to inform President Millerand of his failure, Perrot told the United Press that Millerand probably would charge Raymond Poincaré, former president, with the task of creating a new ministry.

Miss Dorothy Steele returned to Pittsburgh this morning after spending the past three weeks with her mother, Mrs. A. L. Koozer.

PASTOR'S PLEADING INDUCES FASTING WOMAN TO DISCONTINUE HUNGER STR.

DANVILLE, Ill., January 15.—Mrs. Sadie Harrington broke her fast today after having abstained from food for 40 days, following a two hour plea by Rev. G. S. Payne.

"I am ready for breakfast now," she said to the Rev. Payne who won the victory. The pastor called the nurse bring a glass of milk. Rev. Payne said Mrs. Harrington mild and gentle and did not attempt to argue with him, showed her instance after instance in the Bible that she did not expect any one to fast.

Danville, Ill., Jan. 15.—The Rev. of fanatics. Mrs. Harrington G. S. Payne, overseer of the Church of God in Illinois, came here today to visit Mrs. Sadie Harrington, who has been fasting for 48 days in order that she might persuade her husband, E. H. Harrington, to doff the butcher's apron and don the habiliments of an evangelist in the Church of God. "I plan to visit her and talk to her in a plain common sense manner," Payne said. "I believe she has fallen in with a band

of fanatics. Mrs. Harrington no Biblical foundation, what for her action. Abstaining from is suicide, and we are very against suicide."

Ernest Harrington took a of correspondents to see his. "Tell the people I will be a preacher if they pay me \$250 expenses and give me a good liquor to drink before sermon," Harrington said.

WASHINGTON, January 15.—The House Foreign Affairs Committee today unanimously approved of the resolution of Representative Brooks of Pennsylvania requesting the President in his discretion to call an international conference on disarmament.

HARDING WILL BRING DAUPHIN COUNTY IS SMOKING BACK TO THE WHITE HOUSE

Washington, Jan. 15.—Tobacco will be reinstated at the White House under the Harding administration, after an absence of almost 20 years. Various anti-tobacco organizations which purpose to make Lady Nicotine a companion in exile for John Barleycorn will have a shining mark to shoot at, while the smokers will have a national leader. Senator Harding smokes, and he is a slave to no particular form of smoking. Sometimes it is a pipe, sometimes a cigar, and not infrequently it is a cigarette.

He will be the first president since McKinley, who died in 1901, who has used tobacco in any form. Theodore Roosevelt never smoked during his life. William H. Taft was a steady smoker during part of his life, but abandoned the consolation of tobacco when he was secretary of war, b. advice of a doctor, and has never resumed it. He was a non-smoker during his presidential term. Woodrow Wilson has never been a smoker.

Warren G. Harding, however, is a smoker of liberal tastes. He smokes whenever he pleases and whatever suits his fancy at the time. Thus the presidential study after March 4 will frequently be filled with an aromatic haze, while there will probably be ash trays on the mahogany table in the cabinet room a thing that has been unknown for years.

No matter how the election went, the non-smoking era at the White House was destined to come to an end. Governor Cox is a pipe smoker of persistence and enthusiasm. He and Harding were the first pair of smoking candidates in a long time. When McKinley defeated Bryan in 1896 and 1900 he beat a non-smoker. When Roosevelt beat Parker in 1904, the victor was a non-smoker. Both Taft and Bryan in 1908 were abstainers from tobacco. In the three-cornered fight of 1912, Wilson, Roosevelt and Taft were all non-smokers. In 1916 the same state of affairs existed when Wilson defeated Hughes. But in 1920 tobacco came back with both feet. Harding and Cox consumed several pounds during the campaign.

These old-time Clearfielders cannot forget their native health and regardless of the fact that business and later home ties call them elsewhere they always keep an eye on old Clearfield and take a keen interest in her welfare and that of her people.

The truth of the above observation has been made manifest on many occasions, the latest to come to our attention being in connection with the Clearfield Hospital building and endowment campaign. The treasurer of this fund has received a check for \$100 from George H. Gearhart, of Clearfield, Ky., a native Clearfield boy, now one of Kentucky's successful business men, who retains a very warm spot in his heart for the old home town and asks that Mr. and Mrs. Gearhart be credited with a \$100 interest in the enlarged hospital.

Elmer Harris has returned to his home in Altoona after spending the past week here.

elephant is the most docile of beasts. In the hands of man being he is made to obey every command of the While his only use in this country is for exhibition he is used in foreign climes as a beast of burden.

Did an elephant realize his herculean strength and know apply it he would be a most formidable enemy of man. He could wreck buildings and trample underfoot every thing.

Little do we realize that Clearfield's financial institutions are of elephantine in size. We do not mean to infer that they, the elephant, do not know how to make the best of their financial strength but rather that the owners of the money which the banks hold in trust do not properly realize the enormity of their financial strength nor are they awake to the possibilities of further development of industry and commerce the judicious and progressive use of that money.

The resources of the three banking institutions of Clearfield have reached the enormous total of twelve million, six hundred fifty four thousand, six hundred eleven dollars and sixty six cents.

It is an increase in one year of two million, sixty two thousand, six hundred seventy six dollars and eighty two cents.

A year ago there were deposits of \$6,904,515.02. Today there are deposits of \$9,412,899.19, an increase of \$2,508,384.17.

An interesting feature of the deposit is the fact that there is only one town in the state of Pennsylvania which has greater per capita deposits than Clearfield.

The increase in deposits and in resources has not been confined to any one or two of the banks but has been consistent with all.

How best we can employ these gigantic resources for the development of this community is a problem for the masterminds of the community. Pluck, courage, determination and a never wavering faith in the agricultural and industrial future of our county should dictate the development program which will make the soil produce and the earth give up greater wealth.

There is no doubt that our present financial status is the result of conservative banking practice but conservatism should stop with the banker's advice. Investors need not hesitate to go ahead on the banker's advice. Neither should they hoard their money, forming their own opinions as to the merits of development investments.

The appended comparative statements set forth more fully the very desirable conditions of our individual banking institutions:

Safety and High Interest Yield

Now is the time to buy bonds. Interest rates are high; as, for example, the following from our January Bond Circular:

Municipal Bonds yielding 5%.
Railroad Bonds yielding 6 1/2% to 7%.
Foreign Government Bonds yielding 7 1/2% to 8%.

None of us can remember when yields were so high on high grade bonds. When normal conditions are restored, bond interest will be much lower.

Buy now and get high interest yield with safety.

Ask for our January Bond Circular.

COLORED MEN IN LEGISLATURE

Two colored men are among the new members of the Pennsylvania Legislature. Both are from Philadelphia districts. They are John C. Asbury and Andrew P. Stevens, Esq. The latter is one of the most prominent colored lawyers in the east and Clearfield people may be interested to know that his Secretary is Miss Louise Logan a graduate of Clearfield High School and daughter of Mrs. Minnie Holmes Logan, of Reed street.

Is there any evidence that the American home is no longer what it was three-quarters of a century ago? Were the fathers and the mothers of that earlier day any more devoted to their homes than the fathers and mothers of the present? Are parents less devoted to their children?

Perhaps the answer depends upon the environment of the lad or lass of three score and ten years ago. It may be that the well-to-do who resided in the cities or the larger towns of the country at that period had many outside attractions and were as little by the fireside of an evening as their modern successors. The present writer's juvenile experience did not extend to cultured circles.

In a country town sixty or seventy years ago, however, the outside attractions were few and far between. The lad of the period usually found it convenient to travel homeward at "early candlelight." In the middle of the week he accompanied his parents to prayer meeting. On other evenings he studied his lessons or read by the dim light of a tallow candle, sometimes by the aid of an equally dim tin lamp, filled with lard and having a canton flannel wick.

The family religion was a dominant feature of the household. There was "family worship" reading of the scriptures, singing a hymn, a prayer by the head of the family, morning and evening. The Sabbath was strictly observed. The churches were attended by the entire family twice a day, with Sunday school between. The town contained neither theatre nor "movie" exhibition. It was long before the day of movies or automobiles or telephones. The telegraph was still a new thing. The family life was simple. All the children were well acquainted with the father. He came home early.

The Civil War brought a radical change in the smallest village. Almost every family had a representative in the army. The stage coach brought in late at night a daily paper. No matter how late the hour, the post office was usually crowded by men and boys waiting for the news. The minister of the dominant sect took the paper and read the news. By the time the crowd was ready to separate the women and smaller children had been in bed for hours and the evening family worship had become impracticable.

The older men and women of today look back with fond affection to the home which sheltered them in childhood. Most of them, we imagine, are trying to reproduce that home as best they may. Some radical changes have occurred, hours of work have altered, the women are working outside as well as the men, the nights are filled with attractions that draw the crowds, the nights have been turned into day, the frequent cafe luncheons have wrought havoc with the family meal if working hours had not already done so. And yet the American home continues to be the ideal spot to thousands of folks and is still the bulwark of our nation. The home-lover is never likely to go far wrong. Let us do all we can to strengthen its ties and widen its influence. — (Altoona Mirror)

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill

If you are accustomed to wake up with coated tongue, foul breath or a dull headache; or if your meals sour and ferment, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing sweetening and purifying the entire alimentary canal.

Those subject to headache, backaches, bilious attacks, constipation or stomach trouble, are urged to get a quart of limestone phosphate from the drug store and begin enjoying the morning inside bath.

Just as hot water and soap cleanse purify and freshen the skin, so hot water and a teaspoonful of limestone

phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.

ODDS AND ENDS AND THINGS

By "Skinney"

You have got to hand it to the volunteer fireman regardless of who he is or where you find him. He's on the job. That is demonstrated every time demand is made for his services. He's ready, waiting for any and every call and always 'rain' to go. No matter what the hour, weather conditions or other handicap, the volunteer fireman is with you always in a pinch.

Volunteer firemen, like the Irishman's whiskey, are all good; some, it is true, are better than others, but when it comes down to real ability to go to it and stick, don't pass those Houtzdale volunteer firemen when you are passing the bouquets. Houtzdale has a volunteer fire company, 'as is' a real company. They are there with the goods both ways from the middle. They not only own their own home, the town's leading theater and an amusement park of value, but a couple years ago equipped themselves with one of the latest and best little triple combination fire fighting machines that can be found in any small town.

The people of Madera owe much to the thrift, energy and fire fighting ability of the Houtzdale firemen. Shortly after 1 o'clock yesterday morning when fire threatened to devastate the entire business section of Madera and call for assistance went to their neighboring town, those volunteer firemen of Houtzdale didn't turn over in their warm beds and say let Madera fight its own fire; it's not our funeral. You bet they didn't. Those boys hopped out of bed, trundled out their precious \$5,000 machine and within a few minutes of the receipt of the call were rushing as fast as they could over the worst roads in Clearfield county, regardless of the danger to the machine and possible personal injury. They slipped and slid and skidded over those roads until their sister town was reached, when locating their pumper at a favorable spot on the bank of Clearfield creek they soon had two or three streams of water playing on the fire, confining it to the block on fire when these Houtzdale lads reached the scene.

Then, too, despite the meanest kind of a sleet and cold freezing rain storm those boys battled away for four solid hours, never stopping for a minute until all danger of a further spread of the flames was over. They each and everyone of them did yeoman service in their effort to save their neighbors' property and no fire company, paid or otherwise, could have done more effective work.

They gave their time; they expended their most intelligent effort; they risked life and limb, all because they were volunteer firemen and it is a volunteer fireman's duty to put out fires.

We repeat again, you have to hand it to Houtzdale's volunteer fire department. They are there always. It is true that the Osceola, Phillipsburg and Clearfield departments got to the scene just as ready and anxious to help as their comrades from that little old town along the Moshannon, but favored by a shorter distance to travel and the proper spirit those Houtzdale boys were on the job—the rest were not needed.

J. D. Bailey, who lives at Centre, on the road to Curwensville, has a dog which he wouldn't take a farm in the west for. The animal, a Scotch collie, is one of the most intelligent of animals and a prized possession of the Bailey family. One of Mr. Bailey's daughters goes to school at Curwensville, making the journey from home to school in the Curwensville jitney. The dog always accompanies Miss Bailey down the line to the jitney and is the first to greet her when she returns. In fact the daily trip to the jitney was a diversion eagerly looked forward to by doggie, who was always sitting at the door waiting for the young lady to come out at jitney time. One morning Miss Bailey was a few minutes late. The dog was at his post as usual, and when he saw the jitney coming around the turn at Wright's he ran down toward the road and back to the house barking furiously to attract attention and when these antics did not have the desired effect the dog ran up on the porch and placed his paws against the window as the young lady stepped out the door. The next morning the dog was on guard and when jitney time arrived he ran down the line to the road where he sat and watched till the bus came in sight, when he ran back to the porch and rearing on his hind feet

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

(National Crop Improvement Service)
THREE and one quarter billion bushels of corn were raised in the United States. This crop, on more than a hundred million acres, was worth more than two billion dollars. The war period made our corn worth a little more money, but it is doubtful if its purchasing power was as great.
Of course the great volume of this crop is consumed on the farm.
For several years there has been a constant struggle between feeders of dairy cattle and growers of corn as a money crop, one set of farmers accusing the other set of being profiteers.
Corn is now about at its pre-war price and the problem now is to find enough animals to feed, which at the present price is the most profitable way of handling this immense crop.
The surplus of corn which will be available through grain exchanges will probably be greater than ever before. It would be a very simple matter if

every farmer could feed all the corn he could raise and market it through his animals, but when the price of hogs went down after having been fed with last year's expensive crop of corn, the farmer naturally went out of the hog business and that price is now reflected in the price of corn.

Somebody must own this corn, and farmers generally want to get their money out of it. The commission man borrows the money from his bank, after having hedged his purchase of corn in the country, and the farmer gets his cash in hand, transferring all risk of ownership to the new buyer.

No other commodity is handled so well, so quickly or so economically as grain under the present system.

Farmers' organizations are planning to hold the corn on their own account and market it through their own agencies, which may or may not be an improvement over this present system.

NEWS OF OUR NEIGHBORS CURWENSVILLE

The friends of Warren Kephart, of the South Side, will be sorry to hear of his being confined to his home by illness.

It will not be long now until the election for borough officers will take place. There will be vacancies to fill in council and on the school board, and it is most important that good men be chosen for the positions. Men who will legislate for the best interests of the citizen taxpayer and also attend the meetings, and not start back and then cry that such and so should have been done. It is high time that financial conditions should be looked after a little more judiciously and an effort made to curtail expense. If the street through South Side is to be rebuilt, it is going to take a large sum of money, and as the road fund has been expended long ago money will have to be borrowed with which to do the work, hence conservative men should be elected. We do not mean to speak disparagingly of the present members of council, but we are informed that about half them will not serve another term.

From letters received from Curwensville people who removed to Warren and other Ohio towns within a year, we glean that nearly all of the larger industries have cut down to half time, and that before long a new scale of wages will go into effect, which will reduce the pay rolls many thousands of dollars.

Louie Obrino was in Clearfield one day this week, assisting a number of friends in taking out citizen papers.

We were in error in the statement that Fred McKenzie was the only one from this place to contribute to the Alex Wallace fund. Saul Robinson also contributed the sum of \$5. We make this correction in justice to Robinson.

The members of the John Dale Bible class of the M. E. Sunday school will hold a doughnut sale Tuesday, January 18th in the Hastings plumbing rooms. Fresh home made doughnuts may be obtained at any time between the hours of 10 a. m. and 6 p. m.

The regular services will be held in the United Christian church Sunday, January 16th. Services at 11:25 a. m. and 7:30 p. m. Also a special service every evening at 7:30. We invite all Curwensville people to come to all these services. The full gospel is preached. Rev. A. N. Salvie in charge, with others.

WOODLAND

Mr. and Mrs. Lee Heath spent Sunday at Mr. Heath's home in Sandy Ridge.

Mrs. Zenas Fullerton of Mineral Springs, who suffered an attack of nervous prostration the last week is somewhat improved at this writing.

A number of our people attended and enjoyed the Band concert given by the American Legion band in the Clearfield High School building Sunday afternoon.

Mrs. Clara Stewart and granddaughter Doris of Clearfield, spent Sunday with relatives here.

We are glad to note an improvement in the condition of Jonathan Falconer who has been ill for several weeks and hope the improvement will continue.

George Powell, of Blue Hall, attended lodge here on Monday evening and spent the night at the home of his daughter Mrs. John Palmer in Rural Springs.

Mrs. Fred Herbst spent Monday with relatives in Philadelphia.

Mrs. J. M. Hoffmann was a guest at the home of Mr. and Mrs. J. C. Lashberry on Monday.

Mrs. Charles Palmer attended the Sterrett-Underwood wedding in Clearfield, Wednesday.

Mrs. Wilis Eberts, of Clearfield, spent several days this week at the home of her parents, Mr. and Mrs. M. A. Peters.

Mrs. Robert Helckhog and little son Jack were guests on Wednesday with relatives here.

Quite a lot of Woodland Odd Fellows attended lodge in Clearfield on Tuesday evening. They had a fine time of course.

Mrs. Harry Varner and Mrs. W. C. Spackman attended a quilting party at Bigler on Thursday.

Philip Forney whose home is near Woodland shoo like dust or rather mud of Bradford township from his feet on Saturday last and joined the U. S. army and we hear is now stationed at Camp Mead, Md. We hope you will like the army life Philip, but we cannot help quoting the old saying of the returned service men: "You're not behind the plow" now.

Sunday last was the occasion of Mrs. John Givens' birthday and her home was the scene of a pleasant family gathering. Together with her children and grandchildren were five of her six sisters who came from their different homes to spend the day with her. Their names were as follows: Mrs. Richards, of Martha, Mrs. Smith, of Spring

SPECIAL ADDED ATTRACTIONS

PARADISE

Quite a number of home are quarantined with whooping cough.

Mrs. Ben Dale left on Monday morning last for Danville, where she will visit with relatives and friends for a month.

Mrs. Margaret Young, of Woodland, and Mrs. Michael Hippler, of Pittsburgh, are spending a few days with their sister, Mrs. James Carps.

Mr. and Mrs. Mickey Swanson, of Winburne, are visiting at the home of Ben Dale. Mrs. Swanson was formerly Miss Mary Dale, of this place.

Carl Cochran, who has been confined to his home with scarlet fever, is able to be up in his room.

Little Mildred Young, the 2 years old daughter of Mr. and Mrs. Joe Young, who has been ill with pneumonia, is reported much better.

We are in sympathy with a party of women who attended a sewing bee one day this week in our vicinity. They intended going to town on the 5:20 o'clock train which is scheduled to run to the school house at that hour. This evening, like many others, it turned at the watering trough and alas the women were left. Some of them coughed, some stormed, but one woman seemed to think it would be a great comfort to have the \$1.40 to spend when they reached their destination.

William Collins has one of the finest lemon trees in this part of the state at his green house. He picked a lemon this week that weighed one pound and there are still three more on the tree. He also has one of the most beautiful beds of carnations in the county.

A LOT OF ENERGY IS USED IN SEEING

With the best possible vision a few hours close use of the eyes draws on your nerve supply greatly. That is why some people become nervous after reading or sewing for any length of time. To these people we bring the message of relief by glasses. The glasses do the focusing thus relieving the eyes of the necessity for drawing on the nerve supply of the body. Think if this applies to you.

TAKES CARE OF 5 CHILDREN

Mrs. Taylor's Sickness Ended by Lydia E. Pinkham's Vegetable Compound

Roxbury, Mass.—"I suffered continually with backache and was often despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor's medicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found great relief since using it. My back is much better and I can sleep well. I keep house and have the care of five children so my work is very trying and I am very thankful I have found the Compound such a help. I recommend it to my friends and if you wish to use this letter I am very glad to help any woman suffering as I was until I used Lydia E. Pinkham's Vegetable Compound."—Mrs. MAUDE E. TAYLOR, 5 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic endurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound

Monday & Tuesday Jan. 17-18**Dorothy Phillips**

You saw her in "The Heart of Humanity"—you'll never forget her. Yet here is a photodrama still bigger and one in which America's Bernhardt reaches heights of dramatic expression that will hold you enthralled. See her play Aurora Meredith, the small-town girl whose golden voice raised her from humble poverty to the mighty stage of the Metropolitan and you will see acting such as the screen has seldom known.

A PICTURE of Mother-love and a woman's quest that will strike a responsive chord in every human heart. Not a preachment but just a story of your mother and mine, simply and beautifully told, yet with one of the biggest scenes in it that the screen has ever produced—the great panic scene in the Metropolitan Opera House following the shooting of Aurora Meredith on the stage. The critics of the foremost moving picture magazines are unanimous in saying that this is one of the finest things that has ever been done in pictures. You can not afford to miss it. Now playing. Remember the name—you'll never forget the picture—"ONCE TO EVERY WOMAN."

Aughinbaugh's

There's nothing that adds
to the discomfort of winter
more than frozen, bursted
pipes. It upsets your entire
home for you may be depend-
ing on that particular pipe
for your entire water supply.
Why wait until the pipes
burst? Let one of our expert
plumbers make a thorough
examination of the whole
system. He may find some-
thing that should be repaired
at once.

MEAT INJURIOUS
TO THE KIDNEYS

Take a Tablespoonful of Salts if
Back Hurts or Bladder Bothers
—Meat Forms Uric Acid

We are a nation of meat eaters
and our blood is filled with uric acid,
says a well-known authority, who
warns us to be constantly on guard
against kidney trouble.

The kidneys do their utmost to free
the blood of this irritating acid, but
become weak from the overwork;
they get sluggish; the eliminative
tissues clog and thus the waste is re-
tained in the blood to poison the en-
tire system.

When your kidneys ache and feel
like lumps of lead, and you have
stinging pains in the back or the ur-
ine is cloudy, full of sediment, or the
bladder is irritable, obliging you to
seek relief during the night; when
you have severe headaches, nervous
and dizzy spells, sleeplessness, acid
stomach or rheumatism in bad
weather, get from your pharmacist
about four ounces of Jad Salts; take
a tablespoonful in a glass of water
before breakfast each morning and in
a few days your kidneys will act fine.
This famous salts is made from the
acid of grapes and lemon juice, com-
bined with wheat, and has been used
for generations to flush and stimu-
late clogged kidneys, to neutralize
the acids in urine so it is no longer
a source of irritation, thus ending
urinary and bladder disorders.
Jad Salts is inexpensive and cannot
injure, makes a delightful efferves-
cent lithia-water drink, and nobody
can make a mistake by taking a lit-
tle occasionally to keep the kidney's
clean and active.

Effective September 23, 1920. Prices F. O. B. Syracuse

THE favorable position which
the Franklin holds among
motor cars is based on a wide
appreciation of its value.

Today the motorist is interested
as never before in the facts backing
his purchase.

As a reflex of the buying spirit of
the recent "easy days" comes a full
consideration of the fundamentals
of value—price and performance.
One without the other means
nothing.

As far as price is concerned, the
Franklin position established Sep-
tember 23, 1920, speaks for itself.

When viewed side by side with
Franklin prices, Franklin perform-
ance is emphasized more than ever.

Such comparisons invariably
show how the characteristic prin-
ciples of light weight, flexible
construction and direct air cooling
result in these outstanding Franklin
advantages:

Ability to travel the longest dis-
tances in a day—

To cover rough roads comfort-
ably and safely, without fear of tire
troubles or breakage, without skid-
ding—

To go where others can't, and
when they can't, with no fear of
overheating in summer, with no
need of blankets, anti-freeze mix-
tures, or draining or refilling in
winter—

To start easily or surely, and run
steadily, regardless of temperature
or altitude—

To avoid annoying delays on the
road, and troublesome duties at the
end, free from all sense of strain or
worry—

All this throughout an unusually
long car life, and with economy that
is unequalled:

20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation
